

Pregen Chars · Fantasy Starter Set · Frontiers Engine

Frontiers Tabletop Engine · frontiersengine.dev

Five pregenerated characters for the Fantasy Starter Set, built to its creation rules and ready to play at Level 1. There is one for every Calling, so lay them all out and let the table choose.

Download all five (610 KB, .zip)

What Each One Comes With

Every character is three pages, and every page is form-fillable.

Page	Holds
d20 sheet	Attributes and their Ranks, the three tracks, Defenses, Skills, weapons, armor, and what is at hand
Equipment & Features	Folk, Background and its Leverage, the Calling's Core Kit, and both General Abilities written out in full
Details	A short history and personality, with the rest left open for the player

The **Party Pursuit** is left blank on every sheet, because that one belongs to the table.

Have a Look First

Click any character to see their d20 sheet. **PDF** opens that character on their own, all three pages.
